## INSURANCE ASSOCIATES

### **Exemplar Insurance Small Group Health Plan Can Save Small Businesses up to 45% on Healthcare**

After more than a year of strategic planning and development, Exemplar Insurance launched a brand new small group health plan January 1st. Keeping in the spirit of the Exemplar network's primary demands of wanting **more lives** and **better reimbursements**, Exemplar Insurance's new product launch is poised to do just that. By being a vertically integrated product and Exemplar Insurance controlling the majority of the margins in the health insurance product design, rates can be as much as 45% less expensive than other major carriers. This will allow our broker distribution to win **more lives** in the commercial space around all the Exemplar member network locations.

Also, through our PBM, ProRx Solutions, network members stand to earn more money from the prescription side of the medical plan. ***Did you know besides payroll, covering health insurance premiums is usually the second largest expense a small business owner has?*** Now we have a potential solution to save business owners in your community significant dollars. In return, you have the opportunity to reach the ultimate desired outcome in your pharmacy, **More Lives And Better Reimbursements**. If you know of any small business owners in your local community, or would like a quote for your own business, we can help. For more information or to request a quote, please call 855-826-3422.
